60mm w x 139mm h  
Weight 0.02kg

### skin type

All skin types.

### description

A bronze tinted, rich and luxurious moisturising cream with 8% DHA for a gorgeous natural sunless tan. Repeat the following day for a deeper darker colour.

### benefits / top retailing points

- streak free instant colour
- anti-cellulite formula helps tone and smooth skin
- green tea and calendula help prevent premature ageing
- easy to apply: guide colour shows you where you've been
- award winning: mentioned regularly in the glossy magazines
- paraben free

### key ingredients

#### Green tea extract (camellia sinensis leaf extract)

Green tea helps to inhibit collagenase, the topical use of green tea helps to promote the health and quantity of collagen, thereby maintaining a firm and elastic skin. The methylxanthines contained in green tea also stimulate skin microcirculation and therefore positively influence the tone and health of the skin.

#### Marigold (calendula)

Nature's great healer – rich in flavonoids and Vitamin A, calendula is used in beauty products for its cell regeneration properties

#### Guarana seed extract (paulinia cupana)

Gauranine, which is a form of caffeine found in guarana seed extract, penetrates the skin improving micro-circulation and metabolism. In skin care products, it is used for its tonifying and astringent properties and in the treatment of cellulite

#### Lemon peel extract (citrus medica limonum)

Balances the fluid levels in skin cells ensuring optimum circulation – important help eliminate and inhibit the build-up of cellulite. Helps restore skin's youthful vitality.

#### Butcher's broom root extract (ruscus aculeatus)

Improves circulation and skin tone, reduce swelling and to act as an anti-inflammatory.

### application

- rub in evenly using latex-free gloves and / or tanning mitt
- when applying to feet, ankles, knees and elbows, mix one pump of self tan with one pump of exceptional radiance moisturising balm
- apply just self tan on legs, arms, upper body, chest and back using smooth, circular movements
- using a small amount of balm with self tan, apply to the face, blending into the hairline, ears and the neck
- wait for 8 hours for the natural tan to fully develop
- shower off and pat dry
- to go even darker, just apply again to achieve a more intense shade

### professional application

Use as per your Manual Self Tan Application manual.

Refer to section 8 of SDS for personal protection details.  
Clean-up Procedures  
Contain spill with sand or earth. Prevent spills from entering waterways. Collect absorbent material for disposal. Wash down floor area – product may cause slip hazard.

### handling and storage

Handling  
Packed 200ml bottle with pump. Maintain good manufacturing and industrial hygiene practices.

Storage  
Store in cool dry area. Protect from extremes of temperature.

### exposure controls and personal protection

Respiratory Protection  
Not applicable.

Hand Protection  
Not applicable.

Eye Protection  
Not applicable.

Skin Protection  
Not applicable.

### physical properties

Appearance  
Thin opaque cream.

Odour  
Fruity/slight coconut.

Colour  
Dark Brown.

pH  
4.5 +/- 0.5

SG  
0.9 +/- 0.1

### stability and reactivity

Stability  
Product stable and un-reactive.

Materials to avoid  
Hazardous decomposition products  
None.

### toxicological information

Not classified as toxic during the normal course of handling. No health hazards are associated with this product when properly used and in the application for which it is designed.

### ecological information

Not determined.

### disposal considerations

Dispose of product carefully and responsibly in accordance with local and national legislation. Do not allow to contaminate ponds, water courses or drains.

### transport information

Not classified as hazardous for transport.

### regulatory information

Not classified as hazardous for supply under UK CPL or CHIP Regulations.
