Zeta

NAMRØL
GROUP

Zeta

Namrol is shaping the future of professional podiatry chairs.

All research begins with a consideration of history. Using the example of our 1995 podiatry chair, designers describes those elements that still make a Namrol chair unmistakable today. A combination of precision and technological innovation, Zeta offers a patient chair in a class of its own.

The design of Zeta chair really stands out from the crowd. It showcases individuality, while also impressively demonstrating how progress can be interpreted in a comfort way.

The reference
for all new
Namrol designs.

Zeta

You choose 3, 4 or 5 motors

Podiatry Chairs are an essential part of a practice and should be the focal point of every clinic.

More than just a necessary piece of equipment, Zeta represent an investment in quality, technology, and comfort to your patients. It's the opportunity for your podiatry clinic to enhance efficiency and expand treatment solutions, differentiating your practice and clearing the way for profit growth.

skai®

Ideal cover for intensive use

High quality skai® material with fine calf leather grain and subdued matte-gloss-effect.

Disinfectant resistant.

Fulfills medical standard DIN EN ISO 10993-5+10.

Long-lasting.

Easy to clean.

Blood- and urine resistant .

LINAK® 
WE IMPROVE YOUR LIFE

High Performance and Control

Low-noise durable and powerful actuators, with high speed/ high performance and mechanical endstop for first failure safety. This makes it the right choice for the future.

SENOSAN

High quality material made of ABS and PMMA.

White coextruded multi-layer composite sheet with a brilliant surface of sanitary acrylic. High chemical resistance, high impact strength, long durability and of course recyclable.

STABILUS

Variable Positioning

A special piston / valve system, which separates the two pressure chambers in the spring, allows effortless movement and locking.

Details make the difference

It's just a small thing that most people wouldn't notice, but it's a detail worth noting in the quest for outstanding quality and durability.

Uncompromising approach to every treatment situation.

Let us help you choose a Zeta chair that will take your clinic to a whole new level.

Zeta can reach a perfect flat position at any height, for the maximum comfort of the operator while performing a clinical examination or professional treatment.

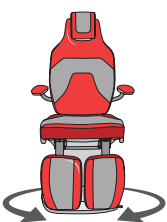

The swivel base, the minimum height to the floor and the folding arms, provide comfortable access for the patient.

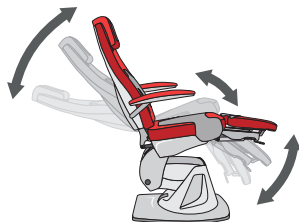

Anatomical backrest with low hardness foam, for comfortable and relaxed treatment of patients.

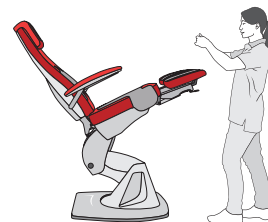

Powered base, back and tilt for effortless positioning (Zeta 3)

360° rotation on base enabling different working positions.

Powered base, back and tilt for effortless positioning.

Maximum height of 140 cm allows you to work standing if desired.

What's your ideal Zeta?
